EDUCATION

Lords Institute of Engineering and Technology

Hyderabad, India

B.E. in Information Technology Expected Graduation, August 2027

- **Concentrations:** Full Stack Development/AI/MERN Stack
- **GPA:** 7.4/10
- **Related Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Python Development

Achievements

HackForge 2.0 Hackathon

Hyderabad
9-April-2026

- Developed Aptivox, an AI-powered interview platform using NLP, ML, and real-time analytics; competed among 200+ teams and finished among top-performing participants, achieving 89% reduction in hiring time and 92% accuracy in candidate skill matching.

Technical Projects

- Developed an AI-powered chatbot focused on promoting environmental awareness and nature-related security solutions at ignited spectrum. Secured 3rd place among several competing teams for innovation, impact, and user engagement. Integrated Natural Language Processing (NLP) for human-like interaction using Python and OpenAI GPT API.
- Designed and developed a responsive personal portfolio to showcase projects, education, and experience. Hosted via GitHub Pages for global accessibility
- Developed EverBuy, a highly responsive e-commerce front-end closely replicating Amazon's design and functionality using HTML, CSS, and JavaScript, implementing product listings, search, navigation, and cart features with dynamic DOM manipulation to deliver a seamless shopping experience
- Built classic web-based games (Tic-Tac-Toe and Rock-Paper-Scissors) using HTML, CSS, JavaScript, focusing on efficient game logic, DOM manipulation, and responsive user experience

Professional Experience

Data Research Analyst

Nov 2024 - Jan 2025

- Conduct research and analyze large datasets to support data-driven decisions.
- Collect and validate data, ensuring accuracy and reliability.
- Develop visualizations and reports for effective communication of findings.
- Identify trends and provide actionable insights to stakeholders.

SKILLS

Programming Languages: C, Python, JavaScript,

Frontend Development: HTML, CSS, React.js

Backend Development: Node.js, Express.js,

Database Management: MongoDB, PostgreSQL

Tools & Technologies : POSTMAN, Git, GitHub, JWT, Recoil
